POLE & TREE GAFFS

MADE IN THE
USA

GRIP
TECHNOLOGY

MOST DURABLE
ALUMINUM CLIMBER
IN THE INDUSTRY

Hybrid Tree Gaff A9306

27/16" hybrid tree gaff allows the BuckAlloy™ Climber to be used on both thick and thin bark trees.

BuckAlloy™
Aluminum Tree Climbers
A95089
(With lower straps).

BuckAlloy™ Aluminum Tree Climbers provide strong, lightweight comfort for total confidence while climbing. Featuring Buckingham's new GRIP (Gaff Ridge Position) technology

that keeps the gaff pointed toward the heart of the tree which aids in preventing cutouts, allowing for a better, more comfortable setting of the foot and arch. GRIP technology,

along with a shorter hybrid gaff length, allows optimum performance and comfort in a wide range of trees promoting easier climbing.
