THE NEW BUCKHORN ADJUSTMENT LEVER AND LOOP HANDLE.

BUCKINGHAM MFG
BUCK
SINCE 1896

The new EZ Squeeze™ features a new Loop handle on the outer strap which positions the user's hands in line with each other, providing a more comfortable grip while climbing.

The new Buckhorn™ Adjustment Lever allows

the user to increase the length of the outer strap, as well as making slight length adjustments without removing user's weight from the unit.

The EZ Squeeze™ also has the ability to be used by right or left handed users and has 3600lbf gate rated hardware.

It fits many climbing styles and needs. The modular design makes it easy to change out worn or damaged components or straps in the field.

Meets ASTM F887-13.
